⚠ WARNING: This product can expose you to Chromium, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov

Before we get started, make sure you have ready:

Apple iOS10 - iPhone
7/7+ / 10X/11/12/13

iPad Mini / iPad 2nd Gen
iPad Pro & above

Android 4.4 - Android
enabled devices including
Samsung, etc.

Operating The Smart Probe

- Download the **i-Flame Pro App**:

- Charge your Smart Probe using a (5V) USB charger (Not included). Indicator light will change to green when fully charged. Remove probe from charging dock.
- Open the **i-Flame Pro App** and it will auto pair with your Smart Probe.
- You can monitor your food temp and your oven temp with the App. Up to 4 probes can be connected to the App.

Tips:

- Place the probe in the dock charger before each use. Charge for at least 2 minutes.
- The external (120V) power supply is connected to the (5V) USB. The red light indicates charging in progress. The light will turn green when fully charged.
- Insert probe to safety notch. Do not insert probe past safety notch.
- Do not expose probe to temperatures exceeding 530 F°
- Keep probe clean by washing with soap & water or place in top rack of dishwasher.

FCC Regulatory Compliance (FCC ID: 2A6PY253ABDGMP)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and use in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
